Cyber East

Secure your Business with Cyber East membership

Cyber East is an industry body that works alongside the UK Government to develop the cyber security industry in the UK. Our aim is to partner with cyber security businesses & organisations in the East of England and provide a platform for collaboration and growth within the Cyber Security industry.

Membership Benefits

It is completely free to become a member of Cyber East, & all members can enjoy a range of business benefits. Just some of the benefits we offer are:

- Networking with local businesses
- Access to cyber security events
- Collaboration among members
- Up to date cyber security guidance
- Training and cyber security courses
- Government cyber guidance & information

- Regular meetings and updates
- Event sponsorship opportunities
- Best practice sharing with other members
- Cyber security innovations & insights
- Access to cybercrime units and resilience centres
- Signposting to other businesses

WE OFFER 3 TYPES OF MEMBERSHIP, SO YOU CAN CHOOSE THE RIGHT LEVEL FOR YOUR BUSINESS.

Cyber Member: Businesses operating within the cyber security sector, or providing services to the sector can join under this type of membership. These are organisations which are actively involved in delivering cyber security solutions in the region.

Business Member: If your business requires a knowledge of cyber security to deliver secure solutions to your customers, you can benefit from this membership type. We also welcome all other businesses with an interest in better protecting themselves to join under this membership.

Partner Member: Our partner membership is dedicated to building a network of organisations from academia, law enforcement, research, training, industry bodies and government who are working on cyber security issues, topics and developments.
